PROFESSIONAL SUMMARY

Experienced Software Developer with two years' expertise. Specialized in mobile application design and functionality. Recognized for creating user-friendly interfaces (UI/UX) via Flutter technology. Proficient in interface design using Figma, emphasizing prototyping and collaborative design practices.

PERSONAL SKILLS

- Passionate about creating impactful and useful solutions in apps development.
- I especially enjoy interface design, where I find creative freedom.
- I accept challenges as opportunities for learning and growth, always searching to learn from others and contribute with my own ideas.
- I believe it's important to understand the client's needs to offer solutions that even I would value if I was in "their shoes".
- Open to criticism and different perspectives, which lead me to be disciplined and go for personal and group success.
- A phrase that motivates me is "While the world sleeps, you dream."

TECHNICAL SKILLS

- UI/UX Mobile Development
- API REST
- Agile Methodology with JIRA
- GIT, GITHUB
- Dart, Flutter, Swift, SwiftUI
- PostMan
- App Store publishing process.

EXPERIENCE & PROJECTS

Mobile Developer | EventSight, Tijuana, B.C. (Remote Freelance) March 2024 - Present

EventSight portal web page design:

- Developed Design System documentation for integration with Figma.
- Designed event portal screens for improved user experience.

UI/UX Design and Development for the EventSight app:

- Contributed to UI/UX design and development for the EventSight app, successfully implementing a redesign proposal currently in development.
- Implemented componentization of elements to enhance code structure and readability.

Mobile Developer | Enerser, Tijuana, B.C. (Full-Time)

August 2022 - April 2024

Design and Development of EnerserTH app:

- Redesigned the company's internal app, enhancing usability with a modern interface.
- Organized project structure by implementing reusable and maintainable components to enhance scalability.
- Developed the UI for a biometric feature, integrating with back-end APIs for employee information retrieval and hour logging within the app.

- Enhanced UX and UI for employee uniform requests.
- Implemented a section within the Active Directory app to facilitate staff credential management.

Development and maintenance of the XIGA Mobile App:

- Implemented FaceID and TouchID Biometrics security filters for iOS using Flutter.
- Added automatic logout feature for inactivity within the app.
- Managed version distribution on App Store and conducted TestFlight testing.

EDUCATION

Universidad José Vasconcelos — Bachelor of Software Engineering with Multimedia — **2023**
